

Trip to Kyrgyzstan

As yurt builders in Nova Scotia, it has been a long time dream for us to travel to Kyrgyzstan to study with traditional yurt builders. After months of planning and with the help of the Kyrgyz Community Based Tourism...

About Us

Hello, we are Selene, Alex & Yara Cole. Welcome to our small family run business.

We have been living in the Gaspereau Valley since 2005 and absolutely love it! This farming based rural community nourishes us with its warm hearted residents and delicious food crops. Our daughter, Yara Pamelyn and our son Rawly Temir keep us very busy and have been known to strim poles with nut crackers!

Alex, Yara & Selene Cole during a yurt building workshop

Little Foot Yurts Mission

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Etiam nec augue neque, a tempus turpis. Etiam velit enim, consequat ac imperdiet in, condimentum eu mauris. Praesent et risus et enim scelerisque facilisis. Morbi ac orci lorem, sollicitudin molestie urna. Duis volutpat convallis viverra. Proin semper facilisis eros sed vulputate.

How we got started

We met whilst traveling in Australia, and later moved to Wales to work on The Roundhouse Project, a traditional Celtic round house built with phragmites reed on the roof and earthen plaster on the walls. <http://www.theroundhouse.org>

This project was located in the Vale of Glamorgan in South Wales where we lived at Coed Hills Rural Artspace; a not-for-profit co-operative social enterprise that promotes sustainable living and creative arts. <http://www.coedhills.co.uk> It was at Coed Hills where we learned how to build yurts, along with tipis, log cabins and straw baled buildings in addition to the Iron Age Roundhouse. Coed Hills allowed us to discover our passion about sustainable living, both ecologically and socially; the "unintentional community" that was formed at Coed Hills essentially became the catalyst for Little Foot Yurts. The amazing people and energy of Coed Hills changed our lives and inspired us to start a sustainable business. In 2003 we moved to Nova Scotia and in 2005 we started Little Foot Yurts.

We provide a **unique and environmentally friendly** alternative to vinyl sided wall tents. Yurts are suitable for any event where the organizers want to create "something special". Yurts can be used for a variety of purposes including weddings, festivals, conferences, family celebrations and community events.

The symbolic circular architecture provides an **intimate and unifying space**, allowing everyone to see each other and connect in a more personal way. By choosing a yurt for your event, you will be making an environmentally friendly choice which supports local well managed woodlots and utilises natural materials.

Why choose a yurt for your event?

- Enchanting yet versatile a yurt offers a unique space for any special event.
- There are no flapping canvases, guy ropes, or central support poles. The canvas walls can be easily zipped opened for better viewing and ventilation
- Our Egyptian cotton canvas is 100% water proof and is tested to current Canadian Fire Standards.
- No chance of a yurt blowing down, they have been tried and tested for over 1000 years to withstand high winds and heavy snow loads.
- Unlike a pole tent, yurts can be fitted with a solid door and the dense lattice frame prevents entry through the walls, ensuring personal belongings and equipment will stay safe.

Lighting, Flooring & Decor

The Palace & Champagne Yurt are simply the most elegant event tent in North America! The wooden trellis and cotton canvas give a feeling of warmth and security from the inside whilst from the outside the yurt emanates a welcoming glow. The remarkable acoustics of the yurt make them ideal for music based events.

"It's difficult to express how much the Palace Yurt added to our wedding. It is so beautiful that it needed virtually no decoration... just a few flowers here and there and we had an incredible space for our ceremony. Many of our guests commented on how appropriate the yurt was for an event as important, special and spiritual as a wedding. In the end, I think that it made things even more beautiful than we had hoped for, and we had very high hopes!"

- Nicole Arsenault and Nick Wilkinson, PEI

Our Rental Yurts

The Palace & Champagne Yurt is ideal for:

Banqueting, Music & Dance The Palace & Champagne Yurt are simply the most elegant event tent in North America! The wooden trellis and cotton canvas give a feeling of warmth and security from the inside whilst from the outside the yurt emanates a welcoming glow. The remarkable acoustics of the yurt make them ideal for music based events.

Large Corporate Events, Meetings & Seminars The circular shape of the yurt and absence of corners allows everyone inside a safe, equalizing space, perfect for educational activities. The cultural aspect of the yurt often brings up interesting topics around sustainability, different cultures, and inspires discussion.

Vendor & Informational Display The Palace Yurt is a large space for vendors and informational table displays. It can fit fourteen 6 ft long tables with standing room behind or sixteen 6 ft long tables with the tables up against the wall. The white canvas makes the yurts ideal for media interviews and provides a glamorous setting for press conferences.

Festivals & Theatre Over 100 wooden poles hold the crown of the roof to create an awe-inspiring canopy above the head. This provides an ideal surface upon which a wealth of lighting effects can be achieved. The remarkable acoustics of the yurt make them ideal for music based events and theatre.

The Workshop Yurt is ideal for:

Children's Area, Family Zone & Accommodation

The yurt is a fun and safe space ideal for creating a relaxing atmosphere for families and playtime. Storytelling, crafts, mini theatre, and circus can be enjoyed by all in the yurt's welcoming space. The 16 foot yurt comes with coconut husk flooring, solid wood door and cushions.

Info Booth, Small Workshops & Meetings The yurt is an eye catcher and is an excellent way to draw attention to your community events. The circular shape of the yurt and absence of corners allows everyone inside a safe, equalizing space, perfect for educational activities.

Small Catered Events Have a lobster lunch at the 18th hole at your favorite golf course! The yurt is ideal if you need extra dining space or for a unique cocktail bar.

The Pavillion Yurt is ideal for:

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Etiam vel sapien felis. Morbi diam odio, consequat sit amet mattis id, vestibulum id nunc. Cras augue tellus, dapibus id vulputate vehicula, pulvinar blandit turpis. Mauris tincidunt euismod faucibus. Praesent aliquet laoreet libero molestie eleifend. Vestibulum posuere nisi sit amet nulla laoreet nec aliquam dolor interdum. Fusce et odio turpis. Praesent sed justo ut sapien ultrices ornare. Morbi accumsan commodo dui sed eleifend. Nulla eget justo ac eros varius porttitor.

Palace & Champagne together

Palace yurt

Lighting

We provide four traditional Moroccan lanterns, which hang from the central wheel. Perimeter mini lights wrap around the circumference of the yurt. Both the lanterns and mini lamps provide beautiful evening lighting in the yurt. Please note we do not provide extension cord for lighting requirements.

Flooring

The flooring is a roll out coconut husk herringbone weave flooring. It helps to prevent moisture and creates a more comfortable space by leveling out bumpy ground. It rolls out in sections and gives you a feeling of being in an enclosed space.

We are one of the few companies that offer an affordable floor. Please note our flooring is not a wooden floor. Some people choose to put a wooden dance floor on our flooring or build their own from plywood if they have "serious dancers".

Set Up

The Palace Yurt takes two days to set up, and the Champagne Yurt takes one full day to set up. The Workshop Yurts takes a few hours. For a typical Saturday wedding, the minimum two-day rental allows us to set up the Palace yurt on Wednesday and Thursday. This would give you all day Friday to set up tables, decorations, etc. The yurt must be empty by 10 am on Sunday for us to take it down. It would be an extra \$150 per day thereafter.

The Palace & Champagne Yurts need to be erected on flat and even ground. Ensure that your chosen area is not more than 1 foot off from level over the entire diameter. To ensure that the Palace yurt will fit in your chosen space, measure a rope to 18 feet (15 feet for the Champagne Yurt) and place a peg in the middle of where you want the yurt to be. Follow the rope around in a circle to make sure the ground is flat and even.

The Palace Yurt is 22 ft high in the centre and 6.5 ft high at the walls. The Champagne Yurt is 13 ft high in the centre and 6.5 ft high at the walls. We will need a minimum of 36 ft diameter for set up and tear-down. If you wish to set up the Palace Yurt and The Champagne together the two diameters need to be side by side in your chosen location.

Please note: We must be able to have direct access to your chosen spot. If we are not able to unload within 50 feet, extra charges for set up will apply.

Removing Canvas Walls

The two front canvas walls of the palace and champagne yurts can be zipped off which provides enhanced ventilation and viewing. Our workshop yurts can have one canvas wall zipped off. The simple zipper design is easy to use so you can open and close the walls after we have gone. We request that you zip up the walls after your wedding activities to ensure that potential high winds do not enter the yurt.

Custom Yurt Prices

Custom-designed yurts

Every yurt we make is custom designed and we take great pride in working with our customers in a personal way. In most cases we prefer to meet with our clients and go through all the choices and arrive at a yurt that will fit your personal needs. We build in the winter months providing new yurts in the early spring time. All of our yurts include the following:

Wall trellises, spruce or steam bent ash (24-28 ft only), door frame, coppiced maple, ash or birch roof poles, steam bent wheel; tailored yurt canvas including wall sections with rot proof skirt, roof canvas with perimeter rope, tension band, canvas door, tie downs, pegs and eight pointed roof hat with window (color of your choice for roof hat).

We have five common sizes of yurts that we build (12 ft, 17 ft, 20 ft, 24 ft & 28 ft) however we can custom build your yurt to any size and specification that suits your needs.

We are not just yurt manufactures. We are a family run business that provide educational workshops and are at the forefront of developing sustainable forestry projects in our local community.

Yurt Building Workshops

Building a yurt is an empowering experience and opens many doors for hands-on learning. Our workshops provide a thorough introduction to yurts, and the basics of yurt construction including: coppice as a timber crop, Acadian forest species, making a greenwood working station, using a drawknife and froe, planning and designing your walls, roof, and wheel, and erecting a yurt. Part of our workshops consists of practical issues unique to yurt living, such as heating and insulation. Our workshops are open to all skill levels.

Our residential yurt building workshop occur at our home, however we can take our workshop to you and provide accomidation and meals! Residential centers, community & youth groups are welcome to host our workshops. For more details and costs please view our [Yurt Building Workshop Outline](#).

We started our yurt building workshops in 2006 and since then over one hundred people from all over Canada have participated in our three day intensive yurt building workshops. People with various backgrounds, ages and experience come together to learn about yurt construction, yurt living and have formed a yurt building community to support each other.

2013 Yurt Building Workshops Dates:
January 18th-20th & January 25th-27th

Our registration of our 2013 yurt building workshops are now open!

[Register Now!](#)

Curious about our yurt building workshop?

Read about the [experiences](#) of one of our workshop participants or check out our [Yurt Hall of Fame!](#)

Yurt Education Experiences

Our yurt education experiences usually occur in a full day hands-on workshop. Participants will broaden their understanding of the structure, history, and cultural background of the yurt – a low impact, sustainable shelter. Through erecting a 200 square foot Mongolian style yurt, we will explore the yurt components and discuss the construction techniques that make these nomadic homes a sustainable shelter. Participants can also build a riving and shaving break, and learn green wood working which could later be applied to any building project. A full day workshop, which can run from 2 - 6 hours, is \$250 per day, not including travel.

Building a yurt is an excellent way to bring people together as a team. It enables a group or individual to have ownership over a project and learn the importance of an individual's worth. The end result is a hand built, creative art piece, a safe space for empowered learning.

We can offer a wide array of workshops depending on your groups needs. Over the past two years we have held many different workshops. [See examples of our yurt education experiences.](#)
